

*The Adventures of Huckleberry Finn*  
**Mississippi River Graphic**

You are going to work with a group of two – three people to create a map detailing Huck and Jim’s trip down the Mississippi River. You will draw the river, every state and the major cities along the way. You will start with Hannibal, Missouri, and go to Tennessee and Kentucky; this is where they have their adventure with the Grangerfords and the Shepherdsons. You will chart the progress of their adventures with the king and the duke, the royal Nonesuch, Old Boggs and Colonel Sherburn and any other important locations. Eventually you will locate Huck and Jim at the Phelps family farm; **you must have at least 10 event locations.**

At each location, Huck learns a lesson, although he does not necessarily know that he has learned a lesson. You will follow Huck and Jim to the bottom of the river when they are in Arkansas and Louisiana.

**The map will consist of the following elements:**

8. **A title**
9. An accurate representation (a map) of the states and where they border the Mississippi
10. **The major rivers** that run into the Mississippi
11. A **graphic representation** of each major adventure; **you must include at least 10 adventures**
12. A **listing of characters** involved in the adventure
13. **At least one quote** for each major adventure
14. A **statement of what Huck learned** from that experience for **EACH** adventure.
